

Chapter Website Bonus Bucks!

The Chapter Website Bonus has been created to encourage chapters to promote their activities and accomplishments through their own customized website and to help them spread the word about how much fun their chapter is having.

Please note that only Woman's Life sanctioned chapter websites are allowed. Other non-sanctioned websites created independent of the Woman's Life website design tool are not allowed.

Who is eligible to receive the bonus?

All chapters that have a sanctioned Woman's Life website are eligible for this one-time bonus. A sanctioned website is one that has been created utilizing the Woman's Life Chapter Website Development Tool.

What is the incentive award?

The one-time \$100 Chapter Website Bonus is paid quarterly with the Quarterly Activity Award.

What are the first steps in creating a Chapter Website?

Chapters that are interested in creating their own website should first assign webmaster duties to a member of their chapter. Please keep in mind the webmaster is required to be a member of your Woman's Life chapter. The webmaster's name should be communicated to the Chapter Development Department. Once security has been updated, the webmaster can logon to the ChapterWeb and begin the design process.

Are there any tools available to help me develop my website?

Woman's Life provides a basic website design tool to assist chapters in the creation of their own chapter websites. The tool includes a standardized home page while allowing the chapter webmaster the opportunity to customize the site with additional pages and chapter specific information and photos. A link to the Chapter Website Design Tool document with tips on using the tool is posted on the ChapterWeb Forms/Instructions page.

Are there any examples of websites that other chapters have created that I can look at?

Several chapters have already created their own websites to market their chapters. To see websites created by our chapters using the website design tool go to the Chapter Websites page which can be found on the Woman's Life website in the Having Fun link.

Who should I contact if I have questions while working on our chapter website?

The Woman's Life Information Systems staff is available to answer any questions that you may have. You may contact them through our website or by calling them directly at 1-800-521-9292.
